## **In Gratitude To**

This Book is dedicated to the following:

To the God of Abraham: Who Is The God of Humankind,  
Our One and Only Lord and Saviour The Christ.

We Dedicate this Book to: to all those who have perished at the hands of ignorant men; To all those Wise Men who understood the difference between what is right and what is wrong; To those wise ones, who are ever present and let not fall civilization.

## **“The Lord He Is God”**

Has in the Oneness of the Living God the Christ Our Lord and Saviours, so it is in the oneness of comprehension and understanding in which those points of truth these authors all conclude and agree upon.

And as a result on which they all agreement this book is produced and given as a testimony that: “The Lord He is God”, and the Lord walks with us everyday, even if you do not see Him, He is with us, He is with those who ask for Him for the Lord Is God of Humankind.

These are not vain words, but are those words from those who know The Lord, His Ways, His Coming.

And many others whose names do not appear here but they know who they are.

To all physicians, whose convictions regarding the soundness of principles set forth in this work, and whose fearless advocacy of therapy based on these principles have been a constant source of encouragement and inspiration to many, this book is also dedicated.

## **Acknowledgements**

The collective knowledge generated from academic research summarized in various references has been critical in the creation of this published work, which is best viewed as a comprehensive compilation and collection of published information by many authors throughout the ages, as well as personal and clinical experience in the treatment of self and others.

This work was possible only by the guidance and Light of Christ who Is God. A special thanks also to those who work with Him and help all of us. May each individual be able, to find this eternal truth, while on earth.

## **Credits and References**

Although all credits and references where given to the best of our knowledge and information contained in the central archives of the Hospitallers Order of the Good News.

If there is any errors or mistakes we kindly ask the reader to allow the knowledge of such items in order to rectify same in future editions of the present Book.

## **Health and Therapeutic Journals and Books**

The present work rests upon the foundations of those civilization luminaries, men and woman of exceptional talent, intuition, and detailed observation. Furthermore it was a privilege to us, for them to have the dedication and time to write and publish their clinical findings.

There is then a vast amount of Journals and Books devoted to the Health and Therapeutics. Of these printed records those from 1850 to 1950 in this one hundred year period we specially encounter that the majority of what is to be known concerning disease its origin and its treatment and cure, where in fact correctly identified. These records, in their collective, contain timeless observations of which many

remain permanent truths. These pearls are hidden from plain sight, only the adept or the initiated can identify them and pick one by one, from the surrounding confusion.

## **Sources**

This book is a Record of the clinical findings of many great Health Practitioners, their findings remain the same throughout the centuries. All share the same conclusion. The Truth is in plain site.

Apart from the Archives of the Hospitallers Order of the Good News Library, we are also very grateful to all libraries, who have kept books for the last 200 years, those of which by their keeping allowed the information on those books to survive, and be upon their withdrawn from their keeping available to purchase by the Order, and kept in its Archives and Library.

The Hospitallers Order of the Good News, has therefore obtained many of this rare Books, many of which are not available, nor found in libraries, for this we thank The Lord who Is God, for having placed the same in keeping of the Order.

## **Errors & Omissions**

## Dedication

*"To the victims, past and present, rich and poor, of Adulterated Food, Patent Medicines, Compulsory Vaccination, Abuse of Surgery, booze-guzzling, industrial diseases, autocracy of dress, false modesty, sex ignorance, and conventional hypocrisy; to those, who never had a real opportunity to learn the truth, being kept in ignorance through the vicarious and popular channels of misinformation.*

*To those, whose nerves, muscles, bones, marrow, and blood have been converted into dollars and cents under, the iron heel of commercial greed, in the name of health, science, and benevolence; to those, whose inner and better selves remain crushed and stifled as a result of monotonous, loveless lives, tyrannical and fanatic parents, and uninspiring surroundings in general; to the patient "sons of toil," who constantly undermine their health and risk their lives, making it possible for us to appreciate art, music, literature, culture, and invention that the genius of human brain has brought forth, yet have for themselves little in return, save fatigue, malnutrition, soul-starvation, anxiety, fear, filth and premature death.*

*To all these victims of our seething, restless, debauching, artificial, and health-wrecking era, impudently labelled "civilized". I affectionately and hopefully dedicate this book." - Dr Simon Louis Katzoff, MD, in "Timely Truths on Human Health", 1921.*

*"The present work is written for the double purpose of correcting error, and imparting truth. Its purpose is not to attack men, nor systems, but simply to state facts by which their pretensions may be judged." - Dr. Frederick Hollick, MD in "Neuropathy, or The true principles of the art of healing the sick" 1847.*

The information is presented for educational purposes only and is not intended to diagnose or prescribe for any so-called “medical” or “psychological” “condition”, nor to prevent, treat, mitigate or cure such “conditions”. The information contained herein is not intended to replace a one-on-one relationship with a qualified healthcare professional. This information is not intended as “medical” advice, but rather a sharing of knowledge and information based on research and experience.

The Hospitallers Order of the Good News encourages the reader to make your own health Care decisions based on your judgment and research in partnership with a qualified Health Care Professional. These statements have not been evaluated by the Food and Drug Administration, in the USA. The information on this Book is not intended to diagnose, treat, cure or prevent any disease.”

As sad it may be, that one is forced to place such a disclaimer, just serves to illustrate the state where the present civilization is at the moment. A civilization founded on lies has no future, a civilization based on false or fake pretences has no future, a civilization that follows political correctness is fake by proxy. To sustain the present civilization is to sustain a lie. Thus the solution is to establish a new civilization, this if Humankind will ever have a chance to develop on Earth.

While there are many quotes to chose from, we dedicate this quote to the Medical Trade: “Let the Dogs Bark Sancho, It is a sign that we’re moving forward!”

“The importance of the colon is borne in upon us by the recurring experience of our daily lives. On its periodic functioning depend our health, comfort, mental alertness and emotional outlook to a greater degree than we care to confess. Who is more of a misanthrope than the subject of the loaded colon? Optimism and pessimism in outlook may be decided by the state of the colon, good temper or bad temper, sunshine or cloud.” - Lord Dawson of Penn, Physician to H.M. the King, London Hospital in “B.M.J.”, 9 July 1921.

The case reports, and clinical published evidence on Colon Hydropathy here given represent just a small part of what is available at the Archives of the Hospitallers Order of the Good News. Many other case reports on Colon Hydropathy have also been published in the Book “Unknown Causes of Disease, or the Idiopathic Nature of Medicine”, 2019.
