In Gratitude To

This Book is dedicated to the following:

To the God of Abraham: Who Is The God of Humankind,
Our One and Only Lord and Saviour The Christ.

We Dedicate this Book to: to all those who have perished at the hands of ignorant men; To all those Wise Men who understood the difference between what is right and what is wrong; To those wise ones, who are ever present and let not fall civilization.

“The Lord He Is God”

Has in the Oneness of the Living God the Christ Our Lord and Saviours, so it is in the oneness of comprehension and understanding in which those points of truth these authors all conclude and agree upon.

And as a result on which they all agreement this book is produced and given as a testimony that: “The Lord He Is God”, and the Lord walks with us everyday, even if you do not see Him, He is with us, He is with those who ask for Him for the Lord Is God of Humankind.

These are not vain words, but are those words from those who know The Lord, His Ways, His Coming.

And many others whose names do not appear here but they know who they are.

To all physicians, whose convictions regarding the soundness of principles set forth in this work, and whose fearless advocacy of therapy based on these principles have been a constant source of encouragement and inspiration to many, this book is also dedicated.

Acknowledgements

The collective knowledge generated from academic research summarized in various references has been critical in the creation of this published work, which is best viewed as a comprehensive compilation and collection of published information by many authors throughout the ages, as well as personal and clinical experience in the treatment of self and others.

This work was possible only by the guidance and Light of Christ who Is God. A special thanks also to those who work with Him and help all of us. May each individual be able, to find this eternal truth, while on earth.

Credits and References

Although all credits and references where given to the best of our knowledge and information contained in the central archives of the Hospitallers Order of the Good News.

If there is any errors or mistakes we kindly ask the reader to allow the knowledge of such items in order to rectify same in future editions of the present Book.

Health and Therapeutic Journals and Books

The present work rests upon the foundations of those civilization luminaries, men and woman of exceptional talent, intuition, and detailed observation. Furthermore it was a privilege to us, for them to have the dedication and time to write and publish their clinical findings.

There is then a vast amount of Journals and Books devoted to the Health and Therapeutics. Of these printed records those from 1850 to 1950 in this one hundred year period we specially encounter that the majority of what is to be known concerning disease its origin and its treatment and

cure, where in fact correctly identified. These records, in their collective, contain timeless observations of which many remain permanent truths. These pearls are hidden from plain sight, only the adept or the initiated can identify them and pick one by one, from the surrounding confusion.

Sources

This book is a Record of the clinical findings of many great Health Practitioners, their findings remain the same throughout the centuries. All share the same conclusion. The Truth is in plain site.

Apart from the Archives of the Hospitallers Order of the Good News Library, we are also very grateful to all libraries, who have kept books for the last 200 years, those of which by their keeping allowed the information on those books to survive, and be upon their withdrawn from their keeping available to purchase by the Order, and kept in its Archives and Library.

The Hospitallers Order of the Good News, has therefore obtained many of this rare Books, many of which are not available, nor found in libraries, for this we thank The Lord who Is God, for having placed the same in keeping of the Order.

Errors & Omissions

Although the editor, publisher have made every effort to ensure that the information in this book was correct at press time, the editor, publisher do not assume and hereby disclaim any liability to any party, for any loss, damage, or disruption caused by errors or omissions, whether such errors or omissions result from negligence, accident, or any other cause. Much care was taken to avoid any errors or omissions, if any do exist, please let us know, in order to correct same in any future editions.

Disclaimer

“The content of this Book is based on research conducted by the Members of the Hospitallers Order of the Good News, unless otherwise noted. The information is presented for educational purposes only and is not intended to diagnose or prescribe for any so-called “medical” or “psychological” “condition”, nor to prevent, treat, mitigate or cure such “conditions”. The information contained herein is not intended to replace a one-on-one relationship with a qualified healthcare professional. This information is not intended as “medical” advice, but rather a sharing of knowledge and information based on research and experience.

The Hospitallers Order of the Good News encourages the reader to make your own health Care decisions based on your judgment and research in partnership with a qualified Health Care Professional. These statements have not been evaluated by the Food and Drug Administration, in the USA. The information on this Book is not intended to diagnose, treat, cure or prevent any disease.”

As sad it may be, that one is forced to place such a disclaimer, just serves to illustrate the state where the present civilization is at the moment. A civilization founded on lies has no future, a civilization based on false or fake pretences has no future, a civilization that follows political correctness is fake by proxy. To sustain the present civilization is to sustain a lie. Thus the solution is to establish a new civilization, this if Humankind will ever have a chance to develop on Earth.

Introduction

The present book is the continuation of the book:

“Colon Hydropathy: The Clinical Evidence & The Health Conditions That Helps To Resolve”, 2020.

The reason for this second tome is two fold: first some of the articles due to their detailed clinical observations and research are of great value, thus merit its publication in extension - by doing so - one book would be too voluminous, but by placing the available clinical published research on the subject of Colon Hydropathy in 2 or more books, it makes the books more easily to be handle.

The second reason was that some of the articles where in 2020, under possible copyright.

Articles specific to Technique, Methods and Procedures are given in full on the Colon Hydropathy Course Manual of the Hospitallers Order of the Good News, Volksmed School of Health and Pharmacology.

"We have assisted in multiplying diseases; we have done more, we have increased their mortality." - Dr. Benjamin Rush, MD

"Ignorance breeds stupidity, it is your responsibility to get educated. Those who don't educate themselves, are condemned to being educated by others." - Rui Gabirro

Spoiler Alert!

It will be seen that it will probably take about 5,000 years, or longer for

Medical Practitioners to finally find or “discover”, the cause of disease(s). In the mean time if you don't want to wait, you may wish to read this book.

The Purpose of this Book

“The present work is written for the double purpose of correcting error, and imparting truth. Its purpose is not to attack men, nor systems, but simply to state facts by which their pretensions may be judged.” - Dr. Frederick Hollick, MD in “Neuropathy or The true principles of the Art of Healing the Sick”, 1847.

Moving Forward

Don Miguel de Cervantes Saaverdra, wrote a book called: “The Ingenious Gentleman Don Quixote of La Mancha”.

Don makes it his mission to revive Chivalry, along with his squire Sancho Panza, whom is known for his many “sanchismos”, quotes that use wit and humour and ironic proverbs. While there are many quotes to chose from, we dedicate this quote to the Medical Trade: “Let the Dogs Bark Sancho, It is a sign that we’re moving forward!”

"The physician being, then, a blind man armed with a club, who, as chance directs the weight of his blow, will be certain of annihilating nature or the disease." - D'Alembert quoted by Dr. Richard Tonson Evanson, MD and Dr. Henry Maunsell, MD in "A Practical Treatise on the Management and Diseases of Children", 1842.

"If we compare the good, which a few true disciples of Aesculapius have done since their art began, with the evil which the immense numbers of Doctors have inflicted upon mankind, we must be satisfied that it would have been infinitely better for mankind if Medical Men had never existed." - Boerhaave

"Never mind the name of heterodoxy in Medicine, what is right is right." - J. R. Findlay.

"We can hardly refuse our assent to the observations of the late Sir Gilbert Blane, that in many cases patients get well in spite of the means employed; and sometimes when the practitioner fancies he has made a great cure, we may fairly assume the patient to have had a happy escape." - Dr Jonathan Pereira, FRS, Father of Pharmacology.

Spoiler Alert

Do not Read this if you wish to stay in Fairyland, By pursuing to read this book, you will realize that Medicine, something that misleads or deludes; an illusion, is basically composed of "Pretty gibberish invented to cheat the ignorant," and it is commonly defined by what some in the profession, for many years now have come to realize, that Medicine Science is founded upon: "Fudge", "Inconsistent observations", and other point out that it might also include "Fairy Dust."

“The importance of the colon is borne in upon us by the recurring experience of our daily lives. On its periodic functioning depend our health, comfort, mental alertness and emotional outlook to a greater degree than we care to confess. Who is more of a misanthrope than the subject of the loaded colon? Optimism and pessimism in outlook may be decided by the state of the colon, good temper or bad temper, sunshine or cloud.” - Lord Dawson of Penn, Physician to H.M. the King, London Hospital in “B.M.J.”, 9 July 1921.

The case reports, and clinical published evidence on Colon Hydropathy here given represent just a small part of what is available at the Archives of the Hospitallers Order of the Good News.

The aim of this book

To make available in a second volume, a clear and systematic record of Research and Clinical observations, of the countless clinicians in regards to the beneficial therapeutic application and its value on the treatment of chronic health conditions. To further complement the information published in the book "Colon Hydropathy The Clinical Evidence and The Health Conditions That Helps To Resolve". This book, is intended to educate the general public, and to be used as a tool for those who wish to pursue a career in a Health Care Profession.
